ISHPI ESTABLISHES TIDEWATER PRESENCE

CHARLESTON, SC – Ishpi Information Technologies, Inc. (DBA *ISHPI*), headquartered in Mount Pleasant, SC, continues to grow both locally and nationwide. *ISHPI*'s growth includes the establishing of a new business center in the Tidewater region of Virginia, supporting Department of Homeland Security (DHS), United States Coast Guard (USCG), and United States Navy (USN) operations. The new operation in Suffolk will be housed out of *ISHPI*'s 31,000 square foot facility opened on 15 December 2010, including the only ICD 705 certified SCIF in the Tidewater area, and will primarily support DHS and the Department of Defense (DoD), providing Information and Cyber Dominance (ID), Engineering, Integration, and Information Technology services.

“*ISHPI*'s expansion to Tidewater will allow us to better serve our growing client base in the area and along the East coast and it is right in line with our strategic goals,” Noah T. Leask, *ISHPI*'s President and CEO, said. “Being close to our clients and their mission allows us to continue to provide solutions at an even greater speed ensuring success. Our facility is multifunctional where we can support many missions to include C5ISR Integration and Cyber Supply Chain Management.”

ISHPI is a premier provider of Information and Cyber Dominance with core capabilities in Information Operations, Information Warfare, Information Assurance, Electronic Warfare, Cybersecurity, and Cyberwarfare. *ISHPI* is conducting operations on the East coast from Massachusetts to Florida and as far west as San Antonio, supporting the Intelligence Community, Department of Homeland Security, and the Department of Defense ensuring Information Superiority. *ISHPI* is a capabilities driven SBA award winning American Indian- and Service Disabled Veteran-Owned 8(a) Small Disadvantaged Business.
