

***ISHPI*.PM. Senior Program Manager Introduction/Summary**

Are you tired of just being another program manager? Would you like to be rewarded for growing business? *ISHPI* has an excellent opportunity for entrepreneurial-minded program managers seeking a leader with a track record of target achievement within SPAWAR or other DOD Agencies. Candidates for this position must have significant experience in program management within SPAWAR or other DoD agencies. Candidates must have the ability to lead and work with experienced sustainment professionals of varying levels. Candidates must have the ability to interface socially with the highest-level leaders within Government and other contract partners.

Position Description:

Senior Program Manager (PM) position with *ISHPI* supporting the Space and Naval Warfare Center (SPAWAR) in Charleston, South Carolina. The Senior PM will have responsibility as the overall lead, manager and administrator for various contract efforts.

Duties and qualifications, identifying both essential and marginal duties:

- Serve as the primary interface and point of contact with Government program authorities and representatives on technical and program/project issues.
- Will supervise contractor personnel and program/project operations by developing procedures; planning and directing execution of the technical, programming, maintenance, and administrative support effort; and monitoring and reporting progress.
- Candidate will manage acquisition and employment of program/project resources and control financial and administrative aspects of the program/project with respect to contract requirements.
- Responsible for opening new conversations between existing partners and close deals.

Education, Skill, and Experience Requirements:

- Fifteen (15) years of Defense acquisition process experience and six (6) years of supervisory experience are required.
- Demonstrable experience in proposal preparation.
- Demonstrable ability to work in fast changing environments.
- Experience interfacing internally and externally at all levels including senior management.
- Experience in mentoring other Program Managers and to direct and coach project engineers.
- Experience in working effectively as the primary customer point of contact.
- Willingness to take ownership of the program with minimal oversight.
- Proven track record as a team leader with a proactive approach to Program Management.
- Familiarity with Federal and DoD contracts procedures.
- Bachelors Degree from an accredited institution desired.
- PMP certification preferred.

Location:

- Charleston, South Carolina

Security Clearance Required:

- TS/SCI

Travel Requirements:

- 0-10% travel required.
